

The Proactive Health Management Plan

Unlock Tax Savings That Turn
Wellness & Preventative
Healthcare Into A **Profit
Center** For Your Company

About The Program:

Already in use by many of America's Fortune 500 Companies, this program captures a federal tax incentive for employers who introduce various types of Preventative Healthcare options to their employees. The goal of the program is to improve the health and wellbeing of employees, and thereby reduce long-term healthcare costs for everyone.

\$800+
Net Tax Savings
Per Employee Per Year

Program Overview

No Out-Of-Pocket Cost

There are no setup fees, and all costs of adding the reequired Preventative Health Benefits are more than covered by the tax savings you'll capture

Tax Savings For All

Because of the reduced tax burden, employers recoup over \$800 per employee per year, while employees keep more of their paycheck

Retain Your Employees

Providing a robust bundle of healthcare benefits at no cost to the employees can help you attract new hires and retain them longer
